The System Works

Benefits of the CertainTeed Integrity Roof System™

Insist upon the Integrity Roof System™ and get the ultimate in roof performance!

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System™ combines key elements that help ensure you have a well-built roof for long-lasting performance.

It all starts with CertainTeed's broad line of shingles, featuring brilliant color blends, dramatic styles and shadow lines, and the strongest warranties in the industry. The right shingle can mean the difference between an average, everyday look or a beautiful roof that's the talk of the neighborhood.

Shingles are just the beginning — to keep your new roof performing and looking great for years to come it takes a complete CertainTeed Integrity Roof System approach.

1. **Waterproofing Underlayment**
The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.*
2. **Water-Resistant Underlayment**
Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.
3. **Starter Shingles**
Starter Shingles are the first course of shingles that are installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.
4. **Shingles**
Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.
5. **Hip & Ridge Caps**
Available in numerous profiles, these accessories are used on the roof's hip and ridge lines for a distinctive finishing touch to your new roof.
6. **Ventilation**
A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.

Flat Roofs
CertainTeed Flintlastic® roofing products are also available for flat roof areas.

*WinterGuard® waterproofing underlayment is not typically applied at the eaves in climate areas not prone to snow and ice.

LIMITED LIFETIME WARRANTY

This warranty includes all work and craftsmanship as long as the customer owns the home.

Final payment must be paid in full for the warranty to go into effect.

All of our materials are of the highest quality and are backed by limited lifetime manufacturer's warranties.
